YOU CAN HAVE IT ALL

Join the Army National Guard after you ETS and have the best of both worlds - civilian and military. Guard members serve one weekend per month and two weeks a year. In return for their service, Guard members get good pay, great benefits, and build toward a military retirement. No matter what your plans are for "life after active duty" - a civilian career, advancing your education, more time with friends and family - you can make it happen in the Army National Guard. To learn more, visit our web site at www.1-800-GO-GUARD.com, call 1-800-GO-GUARD or visit your Reserve Component Career Counselor.
